

Energy Committee Meeting - 25 March 2015, 9:00 AM - Minutes

Attendees: Bob Ericson, Jack Hickey, Gordon Zaks, Paul Sieloff , Breeshin

Action item: Is there an Energy Control System Manual at the school; or is it available on-line; or is it available from the architects: Dore & Whittier?

Guardian – Reviewed quote for weatherization of the school, see attachment.

Old action item: Would a Heat-pump type water heater apply at the school? Ask Guardian.

Town Hall Activity:

Cut test hole in the Library Walls to check for insulation.

Cut Test hole in Selectman's Office to check for insulation.

Get Approval from Selectmen to cut hole in ceiling to ascertain if there is insulation above the Town Hall portion of the building.

Fire Station Activity:

Old action item: Design and install the Control system for the roll up doors at the fire station, which would shut off the large are gas heaters when any of the garage doors are in the open position, or opening or closing. (Checked with Tom of Overhead Doors, who has worked on both the fire station and the DPW doors, who suggested a simple micro-switch that senses door closed, and a cascade relay box with trouble-shooting lights to notify what door is open.)

Old action Item: Replace the Fire Station lights - ballasts and bulbs.

Old action Item: Replace the Fire Station door seals on the outsides.

Next Meeting: Tuesday 8 April 2015 at 9:00 AM at the Town Hall.

Bob Ericson , Chair
