

Minutes of Energy Committee Meeting, 8:00 Wednesday 16 September 2015 at the Lanesborough Town Hall

The following items from the previous meeting (August) were discussed because Jack Hickey was absent at the last meeting, but the chair provided an total update on status:

1. The Energy projects at the Lanesborough Elementary School are all approved by state and Eversource, and control has been passed to the school for implementation (Rick Paris).

- School Lighting upgrade - AEG is ready to go
- Gym Heater Air Control - Guardian has completed design
- Weatherization - Guardian is in process

2. Status of PD Drawings and Plans

- Building Plans- in process
- Furnace Plans - select board prefers oil burner replacement (cheaper prices), energy committee prefers gas burner with propane fuel (more expensive burner and installation, cheaper, more efficient fuel). Chair will try to get more complete bid from H.A. George.(In process)

3. Work on the Town Hall energy conservation

- South hallway Insulating - on hold
- Library Insulating - on hold
- Town Hall ceiling insulation - - working on plans for library to town hall attic air exchange losses

4. Minutes from last meeting: not a quorum!

5. No Other business.

Bob Ericson, Chair
