Request for Determination

24 Swamp Road

Nick Anderson, Berkshire Engineering

Blodgett, owner

- Replacing system to comply with Title V. Failed Title V inspection. Reviewed proposal for replacement of the septic system. New system will accommodate four bedroom home.
- Will be abandoning the old tank and filled with sand.
- Limited tree removal to the maximum extent possible.
- System will be raised approximately three feet.
- Closest point of work is 72' from BVW. Tank will be 87' from the BVW. Erosion control line will serve as limit of work.
- Intent to install this season with hope to have some vegetation growing before snow flies.

Other Business:

- Approved October 3rd Meeting Minutes. Meeting minutes are posted to the Conservation webpage. Hard copies are kept in the Conservation Commission Office.
- Announced MACC conference on 10/29 focused on Forestry Practices and the Wetlands Protection Act.
- S. Parsons will invite Mark Stinson to the November meeting to talk solar project permitting.
