

Lanesborough Board of Health

Minutes for Meeting October 6, 2014

1. John Boleng is requesting a regulation for soil evaluation. Health Agent Ed Fahey is a soil evaluator and routinely carries out soil inspections. BOH Board needs to determine whether they have the right to go above and beyond current Title V requirements. The board will check with Town Counsel regarding testing for high water which would require a soil evaluation study to determine ground water. Ed will conduct a survey to ask Title V inspectors to comment on soil evaluators conducting Title Vs.
2. Jeff Wilbur/Landfill and Burning: Attorney General has filed criminal charges. Lanesborough BOH offered a permit if and when fine is paid.
3. Title V drawing for Dean Maynard property approved and signed by board members pending Ed Fahey checking UMASS report. Larry Spatz will follow up with John Boleng.
